

 **BRITISH ALUMINIUM**

# INTRODUCING BRITISH ALUMINIUM

British Aluminium is one of the leading aluminium & steel glazing company in the Middle East offering a unique boutique service that is unparalleled in Qatar.

We focus on every customer and give great care and attention to ensure each project is unique and stands out, leaving our clients with a picturesque home matching their original concept that tells a story through its exclusive architecture.

# COMPANY BACKGROUND

After 10 successful years of business in Qatar, we can assure you that if you are searching for incomparable quality with reliably long warranties then your project is in safe hands.

**The future is now, the future is British Aluminium.**

Richard Astin: Managing Director

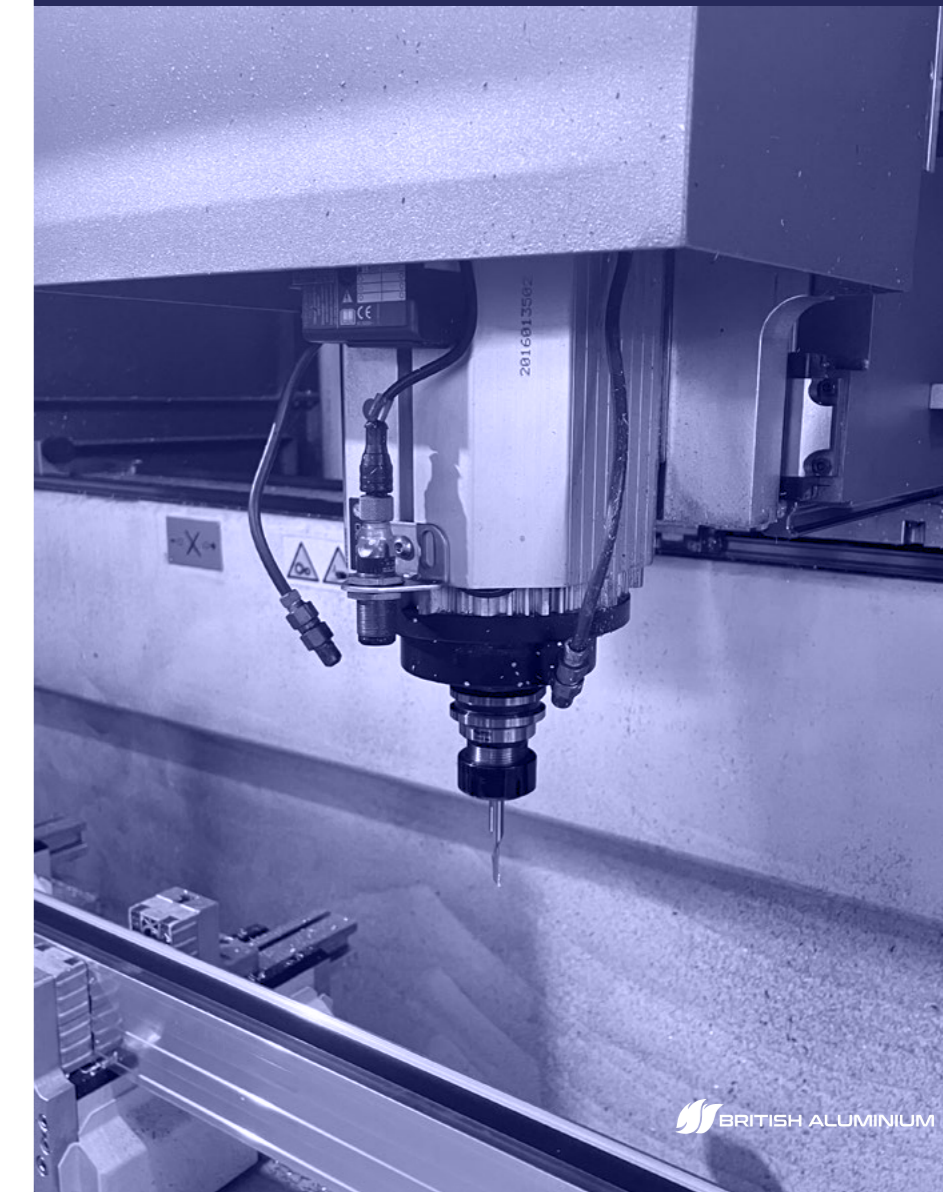

Josh Astin: Commercial Director

## COMPANY BACKGROUND

We have an enormous variety of products from classical to modern designs and focus on unique colours, materials and finishes. All can be seen in our large showroom and state of the art manufacturing facility in the New Industrial Area serving the entire gulf region.

All our aluminium profiles, gaskets and accessories are manufactured and imported from Europe.

## GREEN BUILDING

Our thermally enhanced steel and aluminium profiles have an outstanding performance against water, dust and heat entering the home.

All our aluminium is 100% recyclable with no downgrading of its quality.

### GREEN BUILDING

Extremely low U-value from 0.5 W/m<sup>2</sup>K

We recommend our aluminium systems should be used in all sustainable buildings to minimize energy loss and help conserve the environment.

# COLOURS & MATERIAL FINISHES

British Aluminium have searched the world to source the best paint finishes, textures and colours for our unique product range.

## RAL Colours

We offer hundreds of RAL colours on our products in gloss and matt finish.

## Texture finishes

The most durable finish on aluminium.

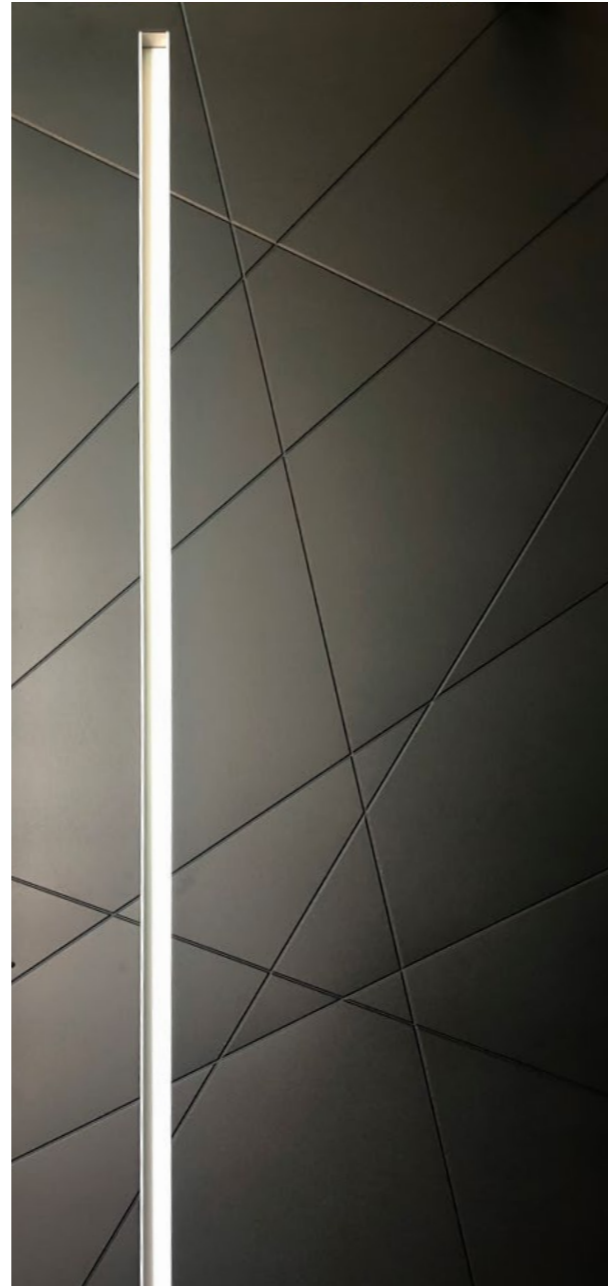

## Wood grain & sand grain effect

From sand grain colours to realistic wood grain effects, make your dream design a reality.

# UNIQUE PIVOT DOORS

British Aluminium supplies and installs some of the most futuristic and modern pivot doors in the GCC Region, we import only the highest quality doors to provide unique solutions for all our prestigious clients.

Our pivot doors are designed to swing on a high performance stainless steel pivot box for large grand openings and can be designed for opening internally, externally or both directions.

## UNIQUE PIVOT DOORS

# ULTRA-SLIM STEEL WINDOWS & DOORS

Introducing British Aluminium's ultra-slim thermally insulated steel windows and doors.

Our steel system provides a classic heritage appearance to any home or building.

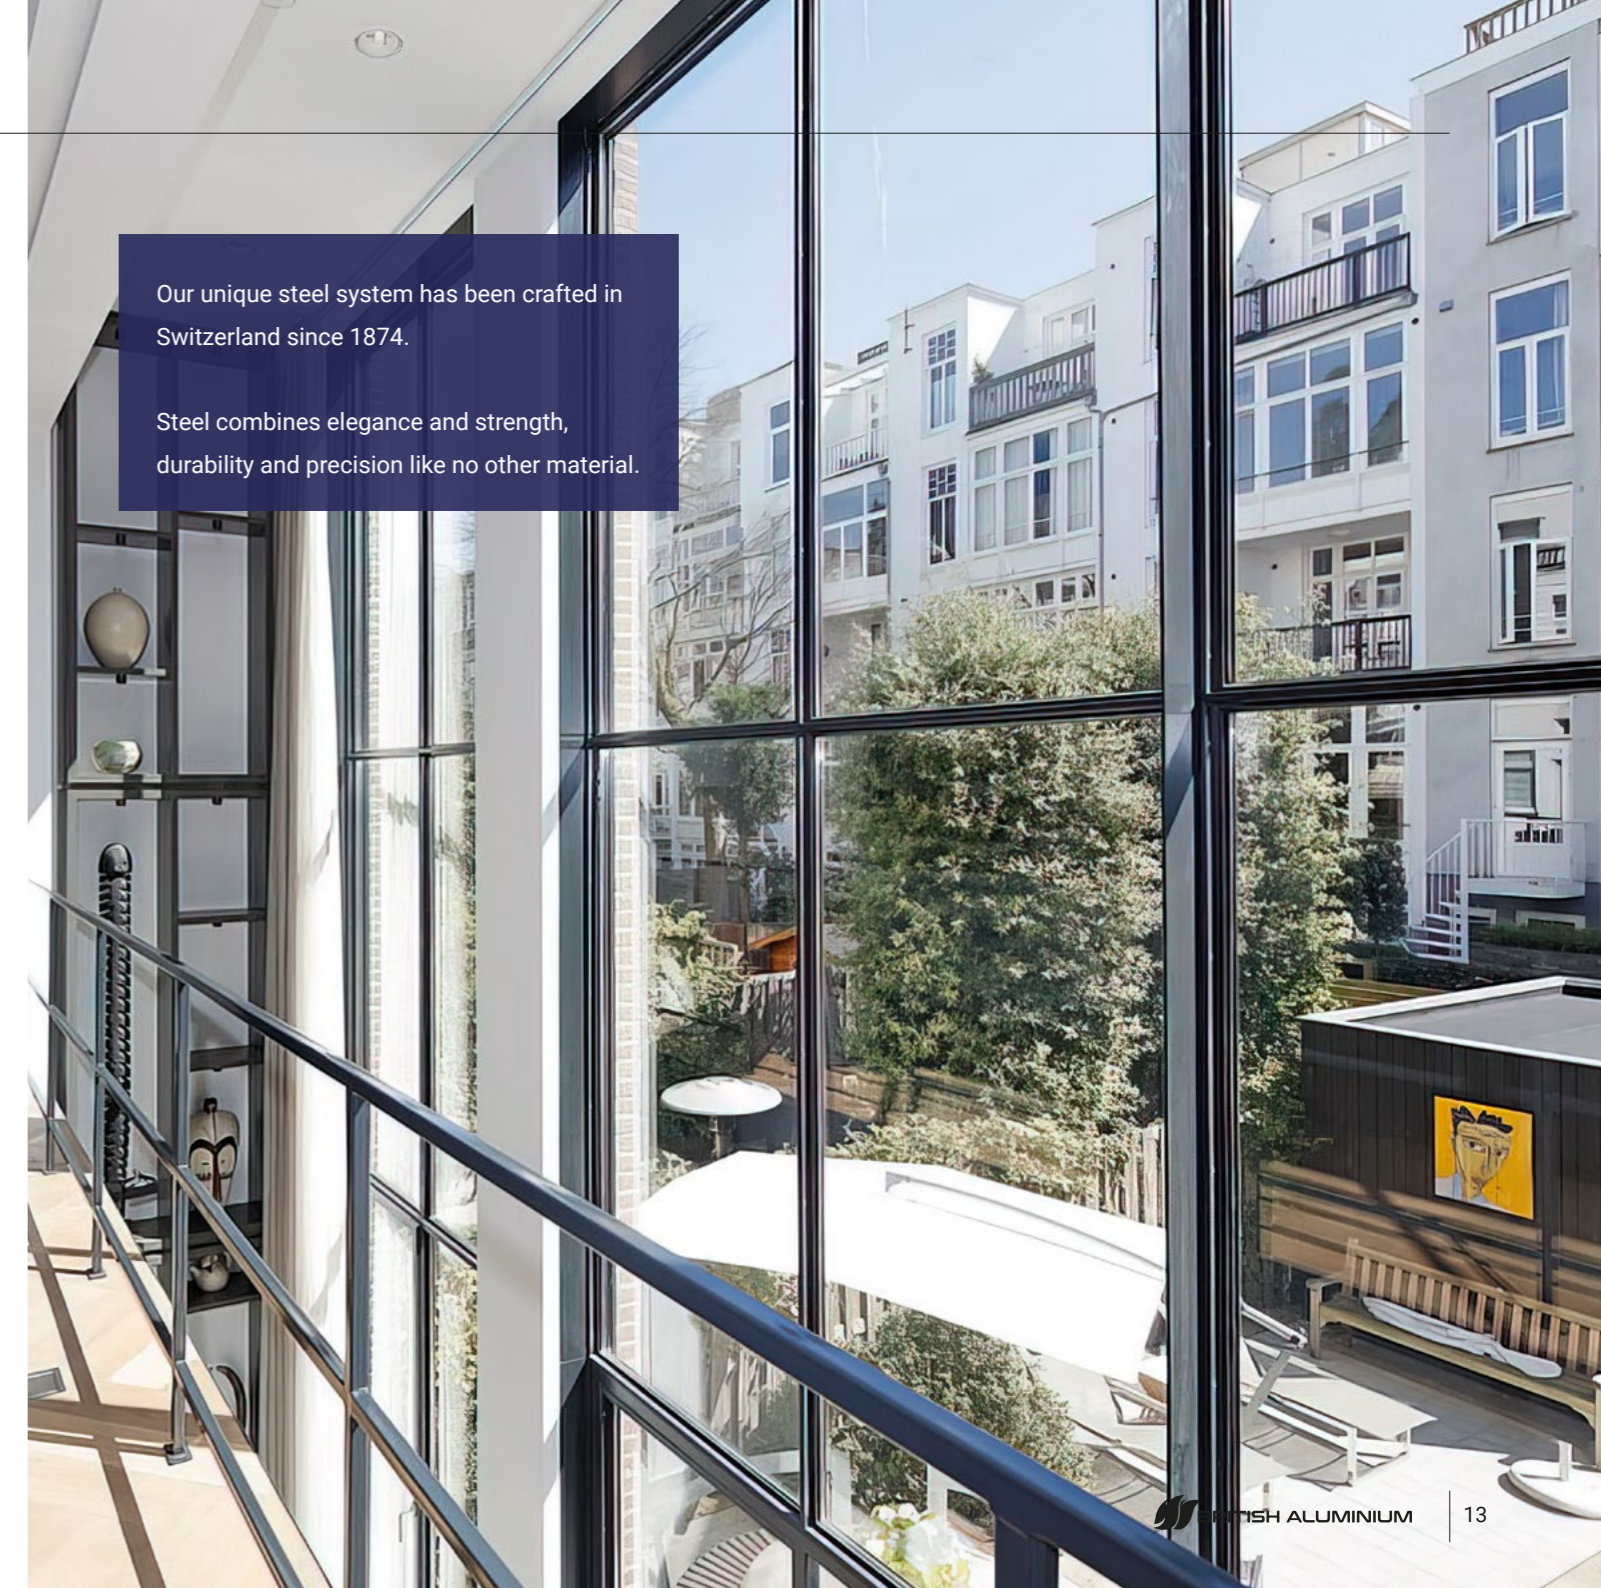

ULTRA-SLIM STEEL WINDOWS & DOORS

Our unique steel system has been crafted in Switzerland since 1874.

Steel combines elegance and strength, durability and precision like no other material.

# INTERNAL STEEL PARTITIONS AND DOORS

Presenting our slimmest profile system for a trendy industrial look or a contemporary timeless design.

Only 18mm width of steel between wall opening and glazing.

Our 100% steel sections are particularly durable, sustainable and ecological because they are completely recyclable. The slim internal system provides brightness and spatial well-being with the greatest possible transparency.

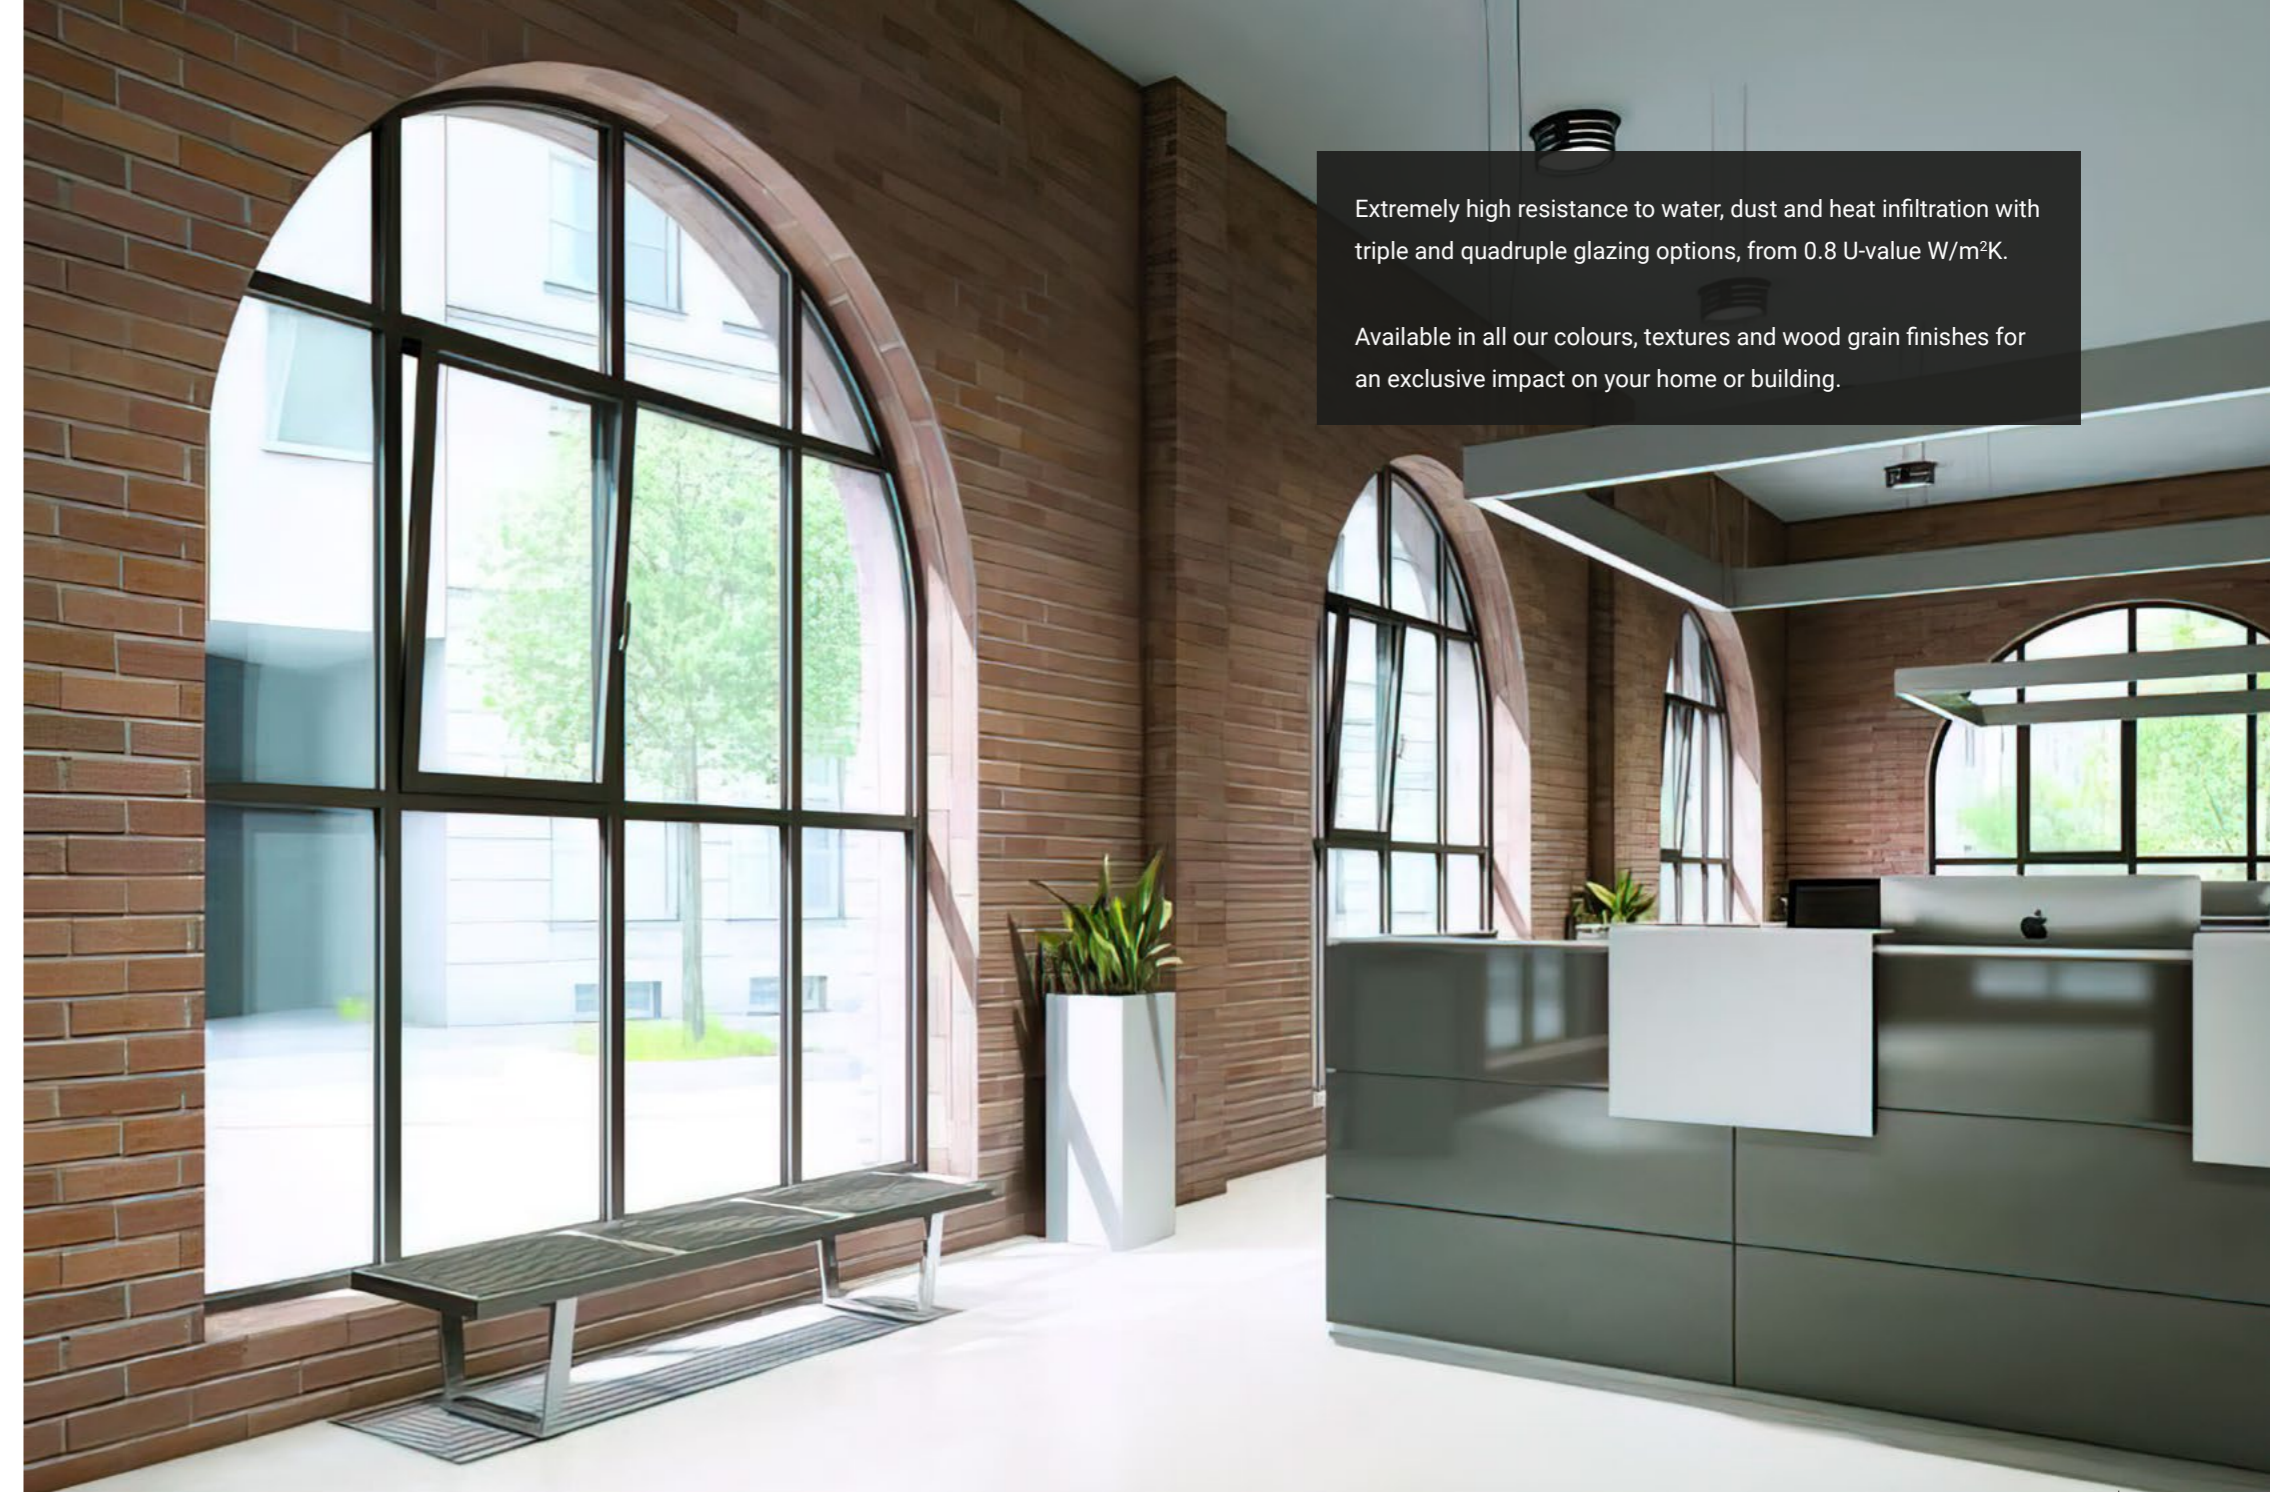

# ALUMINIUM HERITAGE WINDOWS

British Aluminium are producing one of the  
slimmest thermally insulated aluminium  
window systems available globally.

Where classic heritage design meets modern technology and performance.

Extremely high resistance to water, dust and heat infiltration with triple and quadruple glazing options, from 0.8 U-value W/m<sup>2</sup>K.

Available in all our colours, textures and wood grain finishes for an exclusive impact on your home or building.

# THERMALLY INSULATED ALUMINIUM GLASS DOORS

British Aluminium's strongest and most robust doors with opening heights of up to 4 meters.

Every door we manufacture and install is completely bespoke and tailored to every client's individual needs.

## THERMALLY INSULATED ALUMINIUM GLASS DOORS

We offer a large selection of only the highest grade European hardware.

# THERMALLY INSULATED WINDOWS & FACADES

Discover opening window heights of up to 3 meters, without horizontal bars.

Aluminium is a much more versatile and environmentally friendly option to Upvc and allows the greater design flexibility on size, colours, textures and dual colour effects.

## THERMALLY INSULATED WINDOWS & FACADES

Facades are cost effective method of closing large openings in a large variety of colours, finishes and glasses.

# BI FOLDING DOORS

Up to 100kg of weight per leaf due to specialized hardware.

Open up your home to maximize your outdoor leisure space with our smooth gliding, thermally efficient and durable bi-folding doors. We are offering advanced weather-tight and finger-safe gasket technology built into our system.

## BI FOLDING DOORS

Solid 86mm standard depth for large sizes and triple glazing options.

Several threshold options are available to ensure we install your doors to fit perfectly into your building.

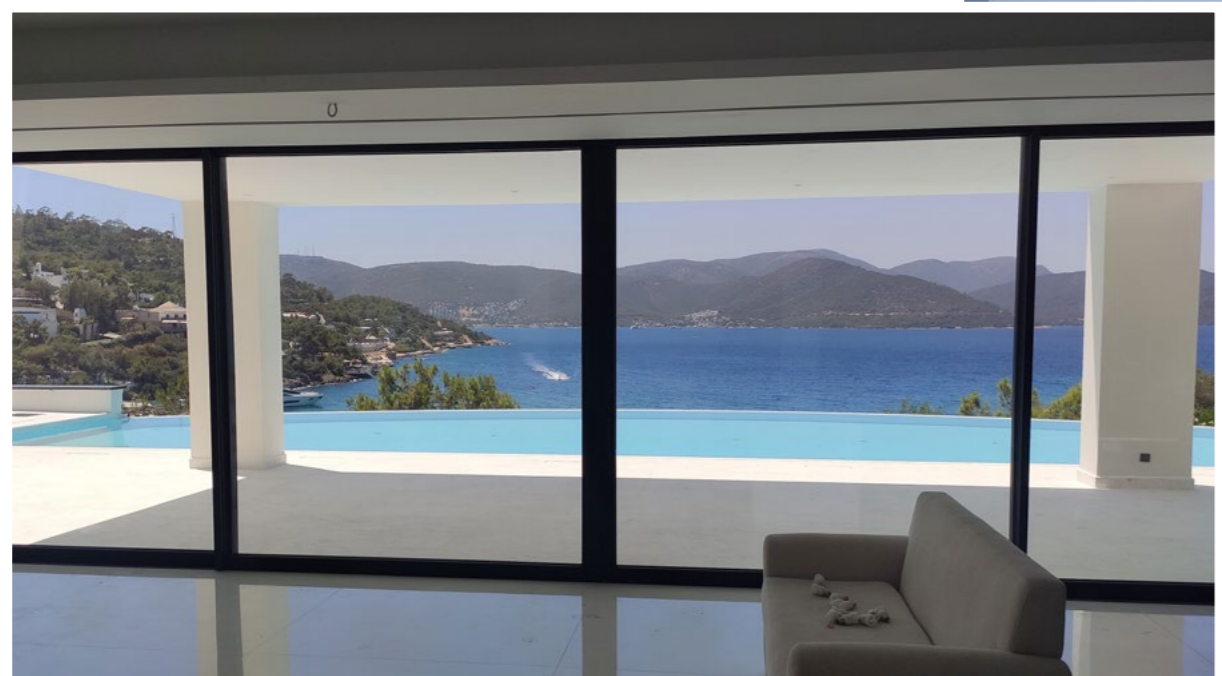

# MINIMAL SLIDING DOORS

Our lift-and-slide door leaves can hold up to 600kgs. We use unique shaped sections and glazing gaskets to ensure top weather performance against air, wind, water and dust.

A great option for saving space in the interior of your home.

## MINIMAL SLIDING DOORS

Automatically open your doors from a remote control, wall switch or your mobile phone.

# DOMANI 100: EXCLUSIVE ENTRANCE DOORS

New generation doors are made of special hardened aluminium for high strength and resistance to corrosion.

Setting a new trend in the Qatar door industry.

## DOMANI 100: EXCLUSIVE ENTRANCE DOORS

Soundproof. Make your noise louder, nobody hears you here. The high tightness of the door frames and gaskets provide a 36.4 dB rating of sound absorption.

Large robust single doors 1200mm x 3500mm.

More than beauty - moisture-resistant materials and high performance characteristics allow Domani to be the pioneer of a new generation of entrance doors.

Quadruple glazing and thermally insulated aluminium sections and panels to stop weather entering your home.

Our exclusive Domani collection is developed on the basis of new innovative trends in design and architecture. From classic models that have and will remain in demand regardless of fashion trends, to the latest modern developments in European style.

# DOMANI 45: INTERIOR MODERN DOORS

Domani interior doors not only match the entrance door interior panel, but also fit perfectly into the interior. You can select a wide variety of veneer, glass and mirror finishes.

## DOMANI 45: INTERIOR MODERN DOORS

Why choose wooden veneer or glass when you can mix them both to create a true highlight for the interior.

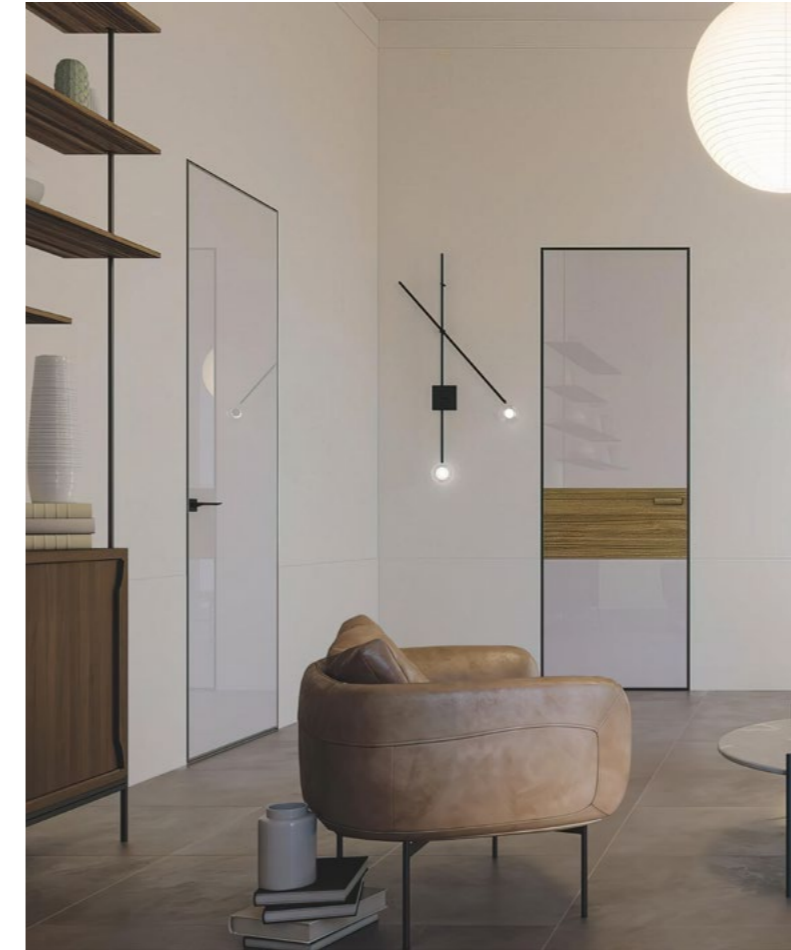

Design is not about beauty...

...it's about beautiful functionality.

Hidden hinges on all interior doors and a large collection of sleek handle options to suit your design requirements. All accessories are made in Italy.

# HONESTY & TRANSPARENCY POLICIES

British Aluminium has built an outstanding reputation in Qatar, Oman and previously in the United Kingdom by trading honestly and transparently in regards to delivery schedules, fair prices and supplying what we say is supplied.

The aluminium business has been in our family for 3 generations since 1946. We care about every project, large or small and take great pride in satisfying our clients' unique needs and requirements.

## HONESTY & TRANSPARENCY POLICIES

### Know your rights

You have the right to ask for a "Certificate Of Origin" from your window and door suppliers to ensure the material is imported from where they say it is.

You also have the right to ask for all test documentation and certification to prove that the performance of the product reaches what is advertised. Water & wind load tests for example.

British Aluminium's documents are always available on your request and we insist that this becomes a normal requirement in the Qatar market to give the power back to the client.

All British Aluminium's products are warrantied for 5-10 years.
